

# Handy & Easy Remote Control (Infrared Remote Control)

※Applies to the CV-9850YRJ and 975YR.

## Grip Handle with Variable Power Settings

With infrared remote control, power settings are right by your hand so you can easily switch between HIGH/MEDIUM/LOW power to match the place and type of floor surface your vacuuming for more efficient cleaning. Another advantage of infrared remote control is that you don't have to keep reaching for the main unit so cleaning is easier than ever.

## Twin Light Emission System

Optical signals transmitted from light emitter ① reach the cleaner after being reflected off the ceiling. Even in a room with a high or vaulted ceiling, thanks to the twin light emission system, optical signals for operation mode switching can still be received from light emitter ②. To enable regular confirmation of battery power, there's a battery checker.

## Here's When It's Handy!

You can adjust power to continue cleaning even when there's a rug on the floor.

You can immediately switch power off if something other than dirt is sucked in.

You can control power with one hand while moving things that are in the way.

## A New Level of Convenience

### Easy Dust Disposal Handle<sup>1</sup>

Dual handles make it easier to hold the body for more convenient dust disposal.

<sup>1</sup> Applies to the CV-9850YRJ, 9800YJ, 975YR, 970Y, 960Y and 950Y.

### Tough Base<sup>1</sup> With Large Wheels

The tough base and large wheels assure extra light, smooth movement.

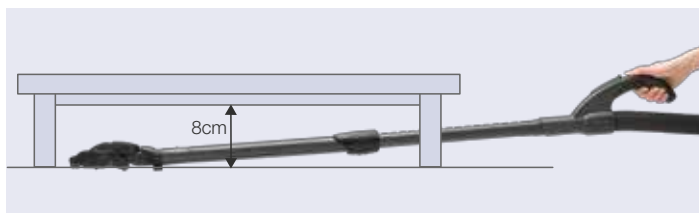

### Grip Handle<sup>2</sup>

The grip fits comfortably in the hand, so rotating the head is easy, enabling effortless, trouble-free cleaning.

<sup>2</sup> Applies to the CV-9850YRJ, 9800YJ, 975YR and 970Y.

## Hitachi's Original Multi Angle Head ※Applies to the CV-9850YRJ, 9800YJ, 975YR and 970Y.

### Free-Moving Head

The head rotates vertically 90° either side, so you can reach dust between furniture and in narrow spaces.

### Flat Mechanism

Because the head stays flat, you can clean thoroughly even under low furniture such as your bed or sofa.

※Features differ depending on the model. Please refer to the specifications.

# Made in Japan Models

## 2300W High Power Motor

The highest (Max.) input wattage of the Made in Japan model is 2300W. High suction power vacuum cleaners mean cleaner rooms.

## 23% Stronger Body ※Calculated by Hitachi.

The thicker can is 23% stronger than the conventional 21.0L model.
