Highlights

AirflowMax technology

AirflowMax technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get high suction power, even as the bag fills-up!

Energy efficient motor

Highly efficient motor uses less energy to generate airflow. In combination with the nozzle, it delivers top dust pick-up results.

5L dust capacity

The specially designed 5L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

TriActiveMax nozzle

TriActiveMax nozzle with 3-in-1 cleaning actions perfectly seals to the floor to maximize dust pick-up. 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front 3) It sweeps up the dust and dirt closely alongside furniture and walls with its two side brushes.

HEPA AirSeal with HEPA13

HEPA13 filter and AirSeal capture even the finest dust before the air is blown out for a dust-free environment and clean, allergen free air. The exhaust air is even cleaner than the air in the room.

ECARF certified

This vacuum cleaner with HEPA 13 filtration is certified as Allergy friendly by the European Centre for Allergy Research Foundation. The HEPA 13 filter purifies the exhaust air up to 99,95% of allergens from; cat & dog hairs, dust mites or pollen to support an allergy friendly home environment.

s-bag Ultra Long Performance

Maintain high cleaning performance for longer, thanks to the XXL 5 liter s-bag Ultra Long Performance. Made of premium, multilayer, non-clogging material, the s-bag Ultra Long Performance guarantees excellent suction power and filtration, lasting up to 80% longer than the standard dust bag.
